## **ADEOS Formations joins Collège de Paris**

Following its acquisition of a stake in Groupe 39, **Collège de Paris**, a higher education and continuing education group present in France and internationally, announces the arrival of **ADEOS Formations**, a professional training organization for companies and the general public, within its community. Present in France in face-to-face and e-learning formats, **ADEOS Formations'** ambition, along with **Collège de Paris**, is to make excellence accessible to individuals and companies by setting up true academies dedicated to the evolution and upgrading of skills.

### **Accelerating Collège de Paris' growth in the continuing education sector**

**Since its creation in 2011**, Collège de Paris has made it its mission to make excellence accessible to individuals and corporate employees in multiple sectors such as business, digital marketing, digital, human resources and entrepreneurship. Always attentive to the market and the new needs and challenges of companies, the group offers its students a variety of training programs that correspond to their personal ambitions.

**Academic year 2022** : Collège de Paris is expanding its continuing education offer and announces the arrival of **ADEOS Formations**, a professional training organization for companies and the general public, founded by Eva Moulin.

The goal? Accelerate the group's growth in the field of continuing professional education and develop the acquisition of employee skills throughout the country.

*« For more than 10 years, we have benefited from a very good reputation and are recognized and recommended for our responsiveness, for the originality of the educational content considered as a precursor which brings a real added value to companies. Our pioneering and adventurous DNA with strong and well anchored values allows us to climb mountains. This alliance will make sparks fly ! » - says Eva Moulin, founder of ADEOS Formations.*

**As part of this acquisition, Eva Moulin was appointed National Director of the Continuing Professional Education Division**, the third area of development for College de Paris after training for young people and job seekers.

The integration of ADEOS Formations into College de Paris and the assumption of the management of the national pole will enable the amplification of a virtuous momentum to provide quality training and guide the success of companies with tailor-made support, innovative solutions and operational advice. Already associated within ECEMA Valence, **the two structures intend to build together a reference offer in the field of adult training.**

### Continuing education offer now enriched within College de Paris

La The new structure will integrate all of the QUALIOPi certified training courses eligible for OPCO and CPF funding of **ADEOS Formations** :

- o **ADEOS Formations**, specialized in skills related to management, business, soft skills, communication, human resources, etc.
- o **ADMETIS Formations**, specialized in the mastery of foreign languages such as English, Chinese, Dutch or German.
- o **ADTERRA Formations**, an organization that responds exclusively to the needs of public structures with training courses dedicated to management in complex situations, integration of employees with disabilities, etc.

**Open to employees, business leaders and the general public**, the training courses now offered by Collège de Paris and ADEOS Formations will be available **in face-to-face sessions at 20 sites in France**, as well as **in e-learning** and virtual classes.

The two institutions will offer **personalized degree courses** so that each individual, regardless of their level of study, has access to excellence and can retrain if necessary. Companies will thus be able to see a real evolution in the skills of their employees and their employer brand will be enhanced.

*« College de Paris now trains more than 30,000 adults per year who benefit from the same commitment and the same educational quality as the 14,000 students enrolled in our higher education institutions for the start of the 2022 school year. ADEOS is both an exceptionally talented team and a very rich catalog that will enable us to build national partnerships with major companies and to accelerate in several areas, notably through an offer dedicated to the Professional Training Account with a professional approach that respects the individual choices of each person. » - says Olivier de Lagarde, president of College de Paris.*

**The training organization intends to become the preferred partner of companies** by providing them with key know-how and expertise to face economic changes and new challenges.

--

#### **About College de Paris**

Founded in 2011 by Olivier and Nicolas de Lagarde, College de Paris is a company with a mission to make excellence accessible through a community of schools or training organizations that share three values: educational quality; international openness; and individualized support towards employment. Three target groups benefit from the programs: young people, particularly through apprenticeships; employees; and job seekers. The activity is spread throughout the country through more than fifty of its own establishments, supplemented by a network of one hundred and fifty accredited partners. By 2022, College de Paris will be supporting 14,000 students and 30,000 adults.
